**NOTES**

Territory' is defined as Australia's land mass plus 200nm out to sea (excluding Antarctica), including New Zealand plus 12nm out to sea.

The Australia Plan can only be used with new Geographical '324' SIM cards from 1st June 2017. The SIM cards are geographically restricted and will not work outside of the Australian Territory.

Iridium do not have current plans to force migrate SIM cards connected prior to 1st June 2017 to the new restricted plan. It is not possible to SIM swap to or from the new 324 SIM card to another number range.
